

CUSTOMIZED SOLUTION SET FOR AIR PARTS BROKERS & DISTRIBUTORS

CTi offers MRO'S a reliable partnership and a superior logistics service. CTi can be used as the global logistics and transportation arm, to complete the service MRO provide their customers.

CTi acts as partner from whom the MRO will benefit through a powerful logistics network and equal support. Parts sourced will be inspected and shipped quickly to the MRO hangar or any other dedicated location, meanwhile full transparency and traceability is maintained via CTiX.

THE MRO'S SOLUTION SET INCLUDE:

- ONE Consolidation Point in the USA, Europe Asia and the Middle East
- Analysis of regular routes and consolidation points to maximise costs reduction /lead time optimization
- An AOG desk operating 24/7 with a designated account team
- Storage of critical parts in key airports globally
- Part inspection in country of origin (identification of errors early in the process)
- Consistent high level service from one single point of contact
- Complete visibility on stock and parts movements Via CTiX
- Micromanagement of the flow door to door
- Around the clock communication and follow up with suppliers and vendors globally
